# ORACLE ART PLATFORM

## Engineering Specification & UI/UX Canonical Document (SSOT)

Version: 1.0
Owner: Oracle
Purpose: Full-stack web application for art portfolio, e-commerce, and custom portrait commissions with dynamic pricing and 50% deposit workflow.

# 1. SYSTEM OVERVIEW

## 1.1 Objective

Build a high-performance, SEO-optimized, visually immersive web platform that:

- Showcases Oracle's multi-dimensional artwork
- Sells originals, prints, and digital art
- Enables custom portrait commissions with dynamic pricing
- Handles 50% deposit and final payment workflow
- Scales for future features (AI previews, memberships, etc.)

# 2. TECH STACK

## 2.1 Frontend

- Framework: Next.js (React)
- Styling: Tailwind CSS
- State Management: Zustand or Redux Toolkit
- Forms: React Hook Form
- Animations: Framer Motion

## 2.2 Backend

- Runtime: Node.js
- Framework: Express.js
- API Type: REST (or GraphQL optional)

- Auth: JWT-based authentication (admin only)

## 2.3 Database

- PostgreSQL (preferred for structured pricing + orders)
- ORM: Prisma

## 2.4 Storage

- Image Storage: AWS S3 (or Cloudinary)
- CDN: Cloudflare

## 2.5 Payments

- Stripe API
    - 50% deposit at order creation
    - Remaining 50% via invoice/payment link

## 2.6 Hosting

- Frontend: Vercel
- Backend: Render / DigitalOcean
- Database: Supabase / Neon / AWS RDS

# 3. CORE FEATURES

## 3.1 Pages

### HOME

- Hero section (full-screen artwork)
- Two primary CTAs:
    - “Explore Art”
    - “Order a Custom Portrait”
- Featured artwork grid
- Short brand statement

### GALLERY / SHOP

Categories:

- Originals
- Prints
- Digital Art

Features:

- Filter by medium, style, price
- Product detail pages
- Add to cart / checkout

### CUSTOM PORTRAITS PAGE

Core conversion page with step-based flow.

### ABOUT

- Artist story
- Brand identity

### CONTACT

- Email form
- Social links

# 4. CUSTOM PORTRAIT SYSTEM

## 4.1 Styles

- Realism (Clarity)
- Fusion (Balance)
- Oracle (Essence)

## 4.2 Sizes

| Tier | Dimensions |
|---|---|
| Small | 8x10 |
| Medium | 11x14 |
| Large | 16x20 |
| X-Large | 18x24 |
| XX-Large | 24x36 |
| XXX-Large | 30x40+ |

## 4.3 Base Pricing

| Style | Small | Medium | Large | X-Large | XX-Large | XXX-Large |
|---|---|---|---|---|---|---|
| Realism | 100 | 150 | 220 | 300 | 450 | 650 |
| Fusion | 130 | 180 | 260 | 350 | 550 | 750 |
| Oracle | 150 | 230 | 320 | 420 | 650 | 950 |

## 4.4 Format Add-Ons

- Digital: +0
- Paper: +20–50 (size dependent)
- Canvas: +40–100 (XXX-Large = 100)

## 4.5 Extra Subjects

- +50 to 150 per additional subject
- Scales by size + style

## 4.6 Pricing Formula

Total Price = Base Price (style + size) + Format Add-On + (Extra Subjects * Subject Fee)
Deposit = Total Price * 0.5
Remaining = Total Price * 0.5

# 5. ORDER FLOW

## 5.1 User Flow

1. Select Style
2. Select Size
3. Select Format
4. Add extra subjects
5. Upload images
6. Add notes
7. View dynamic pricing
8. Pay 50% deposit
9. Receive confirmation

## 5.2 Payment Flow

- Stripe Payment Intent (Deposit)
- Store order as “Pending Completion”
- Admin marks “Ready”
- System sends payment link
- Final payment required before delivery

# 6. DATABASE SCHEMA (SIMPLIFIED)

## Users (Admin only)

- id
- email
- password_hash

## Orders

- id
- customer_name
- email
- style

- size
- format
- extra_subjects
- total_price
- deposit_paid
- remaining_balance
- status (pending, in_progress, completed, delivered)

## Uploads

- id
- order_id
- image_url

## Products (Shop)

- id
- title
- description
- price
- category
- image_url

# 7. ADMIN DASHBOARD

## Features

- View all orders
- Update status
- Send final payment link
- Track deposits
- Upload final artwork

- Export order data

# 8. UI/UX DESIGN REQUIREMENTS

## 8.1 Visual Identity

- Dark theme (black / deep tones)
- High contrast artwork
- Minimal text
- Large imagery

## 8.2 Typography

- Headings: Bold, modern serif or futuristic sans-serif
- Body: Clean sans-serif

## 8.3 Layout Principles

- Grid-based galleries
- Large hero visuals
- Smooth scroll transitions
- Minimal clutter

## 8.4 Interaction Design

- Hover effects on artwork
- Step-based portrait builder UI
- Real-time price updates
- Smooth animations (Framer Motion)

## 8.5 Mobile Optimization

- Fully responsive
- Touch-friendly selectors

- Simplified checkout flow

# 9. SEO REQUIREMENTS

## 9.1 Metadata

Each page must include:

- Title
- Meta description
- Open Graph tags

## 9.2 Keywords

Target:

- custom portrait artist
- hand-drawn portraits
- spiritual art
- abstract art prints
- canvas portrait

## 9.3 Performance

- Lighthouse score > 90
- Image optimization (WebP)
- Lazy loading

# 10. SECURITY

- HTTPS enforced
- Stripe secure checkout
- Input validation (server + client)
- File upload restrictions

# 11. FUTURE SCALABILITY

Planned expansions:

- AI preview generator
- Membership/subscription content
- NFT/digital ownership integration
- Multi-artist marketplace

# 12. DEPLOYMENT CHECKLIST

- Domain connected
- SSL active
- Payment tested
- Order flow tested
- Mobile tested
- SEO metadata filled

# END OF DOCUMENT
